

Minimize Environmental Impact with CIF Series Filters

END-TO-END SUSTAINABILITY & EFFICIENCY

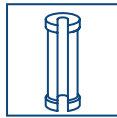

Facet's CIF Series filters deliver high-performance fuel filtration in a coreless, lightweight design that cuts waste, freight, and handling costs. From transport to disposal, CIF filters help you capture operational and environmental savings across your operations.

UP TO **45%**
LIGHTER
REDUCES FREIGHT COSTS

INCINERABLE
NO METAL COMPONENTS

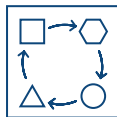

FAST CHANGEOUT
SAVES UP TO 4 HOURS

UP TO **80%**
LESS WASTE
REDUCES DISPOSAL COSTS

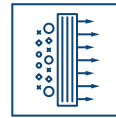

CORELESS DESIGN FOR REDUCED DISPOSAL

CIF filters can be crushed to 20% of their original size, reducing waste and disposal costs. They are also incinerable, providing a sustainable disposal option.

DROP-IN RETROFIT AND EASY CHANGEOUTS

The CIF Center Tube Kit enables a simple, one-time conversion to CIF elements, fits a wide range of housings, and streamlines changeouts by allowing operators to swap only the coreless element.

HIGH-EFFICIENCY FILTRATION

CIF filters remove solid contaminants from aviation fuels and other liquids, with micron ratings from 0.5 to 75 and EI-1590 qualified elements in 1, 2, 3, and 5 microns for jet fuel applications.

LOWER TOTAL COST WITH SUSTAINABLE DESIGN

With CIF's lightweight design, reduced waste volume, and faster changeouts, these filters help lower freight, disposal, and labor costs while supporting long-term environmental objectives.

READY TO TRANSFORM YOUR OPERATIONS?

Partner with Facet to turn filtration improvements into measurable cost and waste reductions across your sites.
